

# LED\* MAGNIFIER / DEBRIS SHIELD WITH MAGNETIC BASE

**QUATRO**  
AIR TECHNOLOGIES INC.

**ILLUMINATES WORK AREA  
AND IMPROVES VISIBILITY**

\* Also available without LED illumination (#AA427-12)

## LED Magnifier / Debris Shield with Magnetic Base #AA555

### Parts included:

- Magnetic base
- Flexible support arm (approx. 12in / 31cm long)
- LED Magnifier assembly
- Power transformer
- Two cable ties
- White steel plate, available on some models

### #AA555 Assembly Instructions:

- Insert the black elbow of the LED magnifier assembly into the flexible support arm (observe link diameter for proper mating).  
**Press on the black elbow NOT ON THE LENS!**
- Place the magnetic base onto a flat surface
- Insert the flexible support arm into the black portion of the magnetic base
- Connect the LED plug to the power transformer, then plug the transformer into a power outlet
- Use the cable ties to secure the transformer wire to the arm
- For installation on non-magnetic materials such as wood or plastic, use the steel plate included in the kit.
